Description

What a Wonderful Home !!! The charm of this 3 bedroom, 2 bath home runs throughout. The open space of the kitchen, dining and spacious living room is bright and airy due to large windows, vaulted ceiling and calm beautiful colors. The large kitchen has many great features including a large pantry closet, gorgeous tile back splash and incredible wood countertops. All kitchen appliances are included. The large master bedroom is tastefully designed with a large window, good sized closet and an en suite master bath which includes a double sink vanity, walk in tiled shower and lots and lots of storage space. The two remaining good sized bedrooms both have large closets and beautiful windows. The guest bath is spacious and has the same beautiful tile work surrounding the bathtub as the master bath. A laundry room and back entry porch provide ample cabinet space and a coat rack area. The front deck of the home has been recently completed and together with the entire home, is in immaculate condition. Off of the back deck is a shed and a small workshop area so that any project can be close at hand and just a couple steps away. The yard has a sprinkler system for ease in watering the grass, flower beds and trees. The pride of ownership definitely shows throughout this home and yard.
